Consultation on an Application for Planning Permission

PK/06/01427/FUL – Proposed development of an energy from waste plant together with a materials reclamation facility, associated infrastructure and landscape works Land at Binn Farm Glenfarg for Sita UK

I refer to your memo dated 27 June concerning the above application and comment as follows:

The proposed development will be regulated by SEPA under the IPPC and/or Waste Management regimes. This authority will therefore have no statutory powers to deal with nuisance from it and consequently I have no comments to make relative to potential for odour.

Under Part IV of the Environment Act 1995 the council has responsibility for local air quality management throughout its area. I therefore request that the applicants be required to provide an assessment of the anticipated emissions from this facility in accordance with Local Air Quality Management – Technical Guidance LAQM. TG(03) published by DEFRA (ISBN 0-85521-021-4).

Please defer determination of this application until I have received and commented on the air quality assessment.
