Dear Sir,

Objection to PPC licence - Binn farm incinerator

I write to formally object to the granting of this licence.  
The whole concept of an incinerator being established where  
the public could be affected by the "fallout" is quite wrong.  
The health issues are partly known, and partly, as yet, unknown.

The record of SEPA in it's supervisory role is also a  
considerable worry - I am on your records as having logged 75  
reports of pollution incidents ( bearing in mind I am away from  
home a lot , and also that I do not phone every time , it should  
be more ) and my impression is that SEPA cannot control what  
is already happening on this site !

I will send copies of this objection to Councillors , and MSPs.  
Please refuse this operating licence

Yours Faithfully,
