Subject: Official objection - incineration at Binn Farm
Re: SITA application for PPC license – Binn Farm

We want to add our firm objections to the development of waste incineration at Binn Farm.

We have a significant interest in denying this proposal as we as about to become residents in close proximity at Glentarkie, without prior knowledge of this application; if we had been aware of this, it would have affected our decision to buy in this area. I understand from J. Clark that SITA will contravene the Scottish Government's policy on waste incineration at regional level; and SITA have not produced a credible business plan to substantiate their proposals.

Yours sincerely,

[REDACTED]
